

# Terra-Fol<sup>®</sup>

## 8-35-5

### Inorganic fertilizer Liquid

Registro RSCO-209/11/08

#### DESCRIPTION

**TERRAFOL® 8-35-5** is a highly soluble fertilizer that immediately provides the plant with phosphorus, a nutrient necessary for root formation, good flowering quality and energy exchange within the plant. The product acts by being absorbed through the roots and incorporates to the metabolism and tissue of the plant. It helps correct cell division, since it provides a key element in the formation of nucleotides.

#### DOSAGE AND MODE OF APPLICATION (FOLIAR)

CROP	DOSE	APPLICATION
Grain	1.0 lt/ha	2 to 3 applications in the cycle at 15-day intervals
Vegetables, tomato, chili, potato, onion, garlic, pumpkin, cucumber, melon, watermelon	500 Ml/ha	In each foliar application of fertilizers and insecticides
Strawberry	1.0 lt/ha	In critical stages of the cycle to stimulate flowering, fruit mooring and developmen
Fruit trees Deciduous	1.0 lt/ha	After flowering and 2 applications during fruiting

#### DOSAGE AND METHOD OF APPLICATION

Dissolve the recommended dose in a clean container, with 200 liters of water. Shake the container, before applying through an irrigation system.

#### INTEGRAL TECHNICAL ADVICE

All our products must be used in conjunction with a balanced fertilization program. It is recommended to do an analysis, both soil and foliar, to achieve optimal growth and production. Consult our advisers at AGRONUTIRNTES DEL NORTE, S.A. DE C.V. for more information.
